

Vibes Hi-Fidelity Earplugs are designed to enhance your live music experience. Unlike traditional foam ear-plugs, which are designed to stop sound, Vibes have been specifically designed and created to filter acoustics so they lower decibel levels of your environment without sacrificing clarity. You hear true natural sound the way it was intended: clear, clean, and controlled.

FEATURE:

- Acoustic Filters Increase Clarity, Protects Ears While Enabling Rich Audio
- Filters Specific Frequencies to Retain/Balance Sound Quality
- 22dB Average Reduction (15 NRR) - Reduces Damaging Decibel Levels
- Reusable, Washable and Virtually Invisible
- Multiple Interchangeable Ear-Tip Sizes (S, M, L)
- Hard Pocket Sized Carrying Case for Safe Storage Included
