

# **DANMAR™**

---

**Creating Great Drum Accessories For  
The World's Drummers Since 1970  
MADE IN USA**

**The 17A Handmade Danmar Castanet instrument produces an authentic Spanish castanet sound. It is designed to be played with the fingers or a very soft mallet (never with drumsticks).**

**For the best results, the springs should not be overly tightened! They should be loose enough to allow the castanets to move easily with very little resistance. The opening between the top and bottom castanets should be about 1/2".**
