

REPOSITIONABLE TO ATTAIN DESIRED SOUND

Simply move the MOONGEL DAMPER PAD around your drum head surface and notice the change in sound. Experiment with the dampers positioning to unlock your drum's full potential.

WASH WITH SOAP AND WATER

Use a drop of dish soap and water to clean the DAMPER PAD. Shake off excess water. **AIR DRY ONLY!**

MOONGEL DAMPER PADS ARE NON-TOXIC

For maximum dampening, place one damper at 12 o'clock and one at 9 or 3 o'clock on your drum head. Cut damper in half or bend a damper against the drum rim to allow half of the damper to touch the head for minimum dampening.

THE POSSIBILITIES ARE ENDLESS!
